## Welcome Pack

## Welcome to Gretton

On behalf of the Parish Council, I would like to take this opportunity to offer you a very warm welcome to Gretton. We hope that the information contained in this pack will help you to settle more comfortably into your new home and the village.

Gretton is a thriving community with many excellent facilities of which we are very proud. There is a Village Hall which hosts numerous and varied events and is also available for hire by residents. In addition there is also an extensive recreation ground which, as well as being the home for our football and cricket clubs, also provides an all weather multi use games area, a BMX track and children's play areas all in a safe and traffic free environment.

Neighbours usually become your first contacts and source of information but please feel free to contact any member of the Parish Council for assistance. The Post Office is a treasure trove of local information and the staff there will always do what they can to help newcomers to the village.

As residents, we trust you will soon feel and become part of this community. We have tried to gather as much useful information as possible in this pack and the Councillor responsible for it, Julie Smith, would welcome any suggestions you may have for it's improvement.

We wish you many happy years in Gretton and hope you will join us in maintaining our vibrant and friendly community.

Andy Royle  
Chairman Gretton Parish Council

## History of the Village

There have been people living in this area since pre-historic times and there have been finds from the Roman and Iron-age periods. The first recorded mention of Gretton is in the Domesday book of 1086 when the village consisted of about 400 acres of land including meadow and woodland. There were some 22 families and a priest. A manor house existed in Hall field, with its own fish ponds, and there was a watermill on the Welland.

The village has been much rebuilt over the years and has many fine stone houses dating back to the 17th century or earlier. The church as we see it today dates back to the Norman period with many later additions and changes. Until the coming of the railway in the 1870's, the village had always been dependent on agriculture. However, when the rich seams of ironstone were discovered the men were taken away from the fields and into the quarries and steelworks of Corby.

The War Memorial on the village green is unusual, though not unique, in that it records the names of all the men who served the Great War of 1914-18, with those who lost their lives being picked out in gold. It was erected, paid for public subscription, in 1925.
